Education

PhD in Mathematics Oct. 2020 – Sep. 2024
University of Southampton, Southampton, UK
Thesis title: Quasiconvexity and separability in relatively hyperbolic groups
Supervisor: Ashot Minasyan

Master of Mathematics Oct. 2015 – June 2019
University of Warwick, Coventry, UK (1st class Hons.)
Dissertation: Boundaries of relatively hyperbolic groups, supervised by Saul Schleimer

Employment History

Postdoctoral researcher, *University of Bonn*	Oct. 2024 – Present
Private tutor, *Ivy Education*	Aug. 2019 – Sep. 2020
Undergraduate supervisor, *University of Warwick*	Oct. 2018 – June 2019
Teaching assistant, *Further Mathematics Support Program*	Jan. 2018 – Apr. 2019

Research interests

Geometric, combinatorial, and topological methods in group theory. Hyperbolic groups and their generalisations. Profinite and residual properties of groups.

Publications

1. *Realising all countable groups as quasi-isometry groups*, with P. Heim, J. MacManus
   Preprint, submitted (2026), arXiv:2601.06261
2. *Product separability in central extensions*,
   In press, Groups Geom. Dyn. (2026), doi:10.4171/ggd/998
3. *Tiling in some nonpositiely curved groups*, with J. MacManus.
   In press, Trans. Amer. Math. Soc. (2026), doi:10.1090/tran/9763
4. *Structure of quasiconvex virtual joins.*
   J. Topol. (2025), doi:10.1112/topo.70021
5. *Separability in Morse local-to-global groups*, with D. Spriano.
   Bull. Lon. Math. Soc. (2024), doi:10.1112/blms.13121
6. *Quasiconvexity of virtual joins and separability of products in relatively hyperbolic groups*, with A. Minasyan. Algbr. Geom. Top. (2024), doi:10.2140/agt.2025.25.399

Teaching

Lecturer, Geometric group theory, *University of Bonn*	Oct. 2025 – Feb. 2026
Marker, Linear algebra I/II, *University of Southampton*	Oct. 2020 – May. 2024
Teaching assistant, Calculus, *University of Southampton*	Oct. 2023 – Jan. 2024
Teaching assistant, Analysis, *University of Southampton*	Oct. 2021 – Dec. 2022
Marker, Group theory, *University of Southampton*	Oct. 2021 – Dec. 2022

Awards

Doctoral College Research Award, *School Winner*, University of Southampton June 2024

Activities

DEDIC representative, *University of Southampton* Oct. 2022 – Sep. 2024
EDI-based role involving regular meetings with faculty members to discuss the status of equality of diversity within the school and possible approaches to their improvement.

Postgraduate student representative, *University of Southampton* Oct. 2022 – Sep. 2024
Interfacing between students and faculty on any issues with the department or graduate programme, attending meetings with representatives from other schools within the faculty.

Organiser, *Southampton Pure Mathematics Postgraduate Seminar* Oct. 2021 – Sep. 2022

Academic support officer, *Warwick Maths Society* Oct. 2018 – June 2019
Elected role involving organising and running weekly academic help sessions for undergraduates.

Selected talks

"Realising quasi-isometry groups" May 2026
Group theory seminar, *ICMAT*

"Realising quasi-isometry groups" April 2026
Geometric group theory seminar, *University of Oxford*

"Separability of products of subgroups" May 2025
Groups and Geometry in South England, *University of Oxford*

"Product separability in central extensions" April 2025
Gruppen und Geometrie in Nordrhein-Westfalen, *University of Münster*

"Tiling in nonpositively curved groups" May 2024
Geometric Group Theory Seminar, *University of Bonn*

"Tiling in nonpositively curved groups" March 2024
Mathematics Seminar, *Royal Holloway, University of London*

"Combining quasiconvex subgroups of relatively hyperbolic groups" May 2023
Southampton Pure Mathematics Colloquium, *University of Southampton*

"Separability and combinations of quasiconvex subgroups" February 2023
Junior Geometry Seminar, *University of Cambridge*

"Combining quasiconvex subgroups in hyperbolic groups" January 2023
Dynamics and Group Geometry Early Researchers Seminar, *University of Warwick*

"Separability of products in relatively hyperbolic groups" October 2022
Junior Topology and Group Theory Seminar, *University of Oxford*

"Separability and quasiconvexity in relatively hyperbolic groups" September 2022
Modern advances in geometric group theory, *University of Manchester*

Conference organising

Co-founder and local organiser December 2024 – Present
"Gruppen und geometrie in Nordrhein-Westfalen"
Series of quarterly meetings among geometric group theorists in north-eastern Germany, in collaboration with Münster, Düsseldorf, and Bielefeld

Co-organiser, "Automorphism groups in Bonn" September 2026
Two-day workshop focusing on recent developments in automorphism groups
University of Bonn

Organiser, "Introduction to modern advances in algebra" February 2024
Grants obtained from Heilbronn Institute and MAGIC consortium
University of Exeter

Organiser, "Early Career Symposium for Topology, Actions, and Symmetry" August 2023
Grants obtained from LMS and Heilbronn Institute
University of Southampton
